

## Mouse IgG Agarose

Cat# : Q9001

<b>品名:</b>	Mouse IgG Agarose
<b>货号:</b>	Q9001
<b>规格:</b>	500ul ( containing 250ul gel )
<b>浓度:</b>	1ml gel containing 10mg mouse IgG
<b>外观:</b>	Liquid
<b>缓冲液:</b>	0.02M PBS with 50% glycerol, 0.2‰ azide, pH7.4.
<b>应用范围:</b>	ImmunoPrecipitation; User Optimized
<b>保存条件:</b>	-20°C
<b>产品说明:</b>	<p>IgG-Agarose can be used as an immunoabsorbent. Typically cross-reacting antibodies may be removed from an antiserum preparation using an equal volume of IgG-Agarose (resin volume). Mouse IgG-Agarose has been used for several immunoprecipitation assays,. The whole IgG molecule possesses both the F(c) region, recognized by high-affinity Fc receptor proteins, as well as the F(ab) region possessing the epitope-recognition site. Both heavy and light chains of the antibody molecule are present.</p>
